

For Immediate Release
November 9, 2009

In an effort to provide more convenient service and collaborative interaction with our clients, North by East Consulting announces the implementation of the **Company Membership** project. Participating clients will have access to an online vantage point with a panoramic view of all aspects of their consulting projects.

"It is critical that our clients have visibility and access to their progress at all times. That is why we are always striving to find new ways to increase communication between our staff and our clients. The Company Membership project allows our team to gain valuable information from clients, enabling us to reach desired results with maximum efficiency. This is the latest way of using IT systems to improve our company and increase the value of our services."
– Jim Croke, Director of Technology Development

When employing North by East Consulting to work with your company, you will receive a personalized North by East Client web portal to participate in your project. The portal allows you to view daily updates on your project, provide feedback, gain insightful points of view from our staff and maintain a critical connection that will maximize efficiency.

Benefits Include:

Personalized Web-Page

Feedback Forum

Complete Visibility of your Consulting Projects

White Papers and Industry News
